Our City-Centre Campus

Our location couldn't be better, as our modern single-site campus is in the heart of Coventry city centre. You can benefit from fantastic academic facilities which are only minutes away from high-street shops, bars and restaurants.

The teaching and learning buildings are all within easy reach of other campus facilities such as the Library, the Sports Centre and **TheHub** students' building. Most first year accommodation is either on or very near campus, so wherever you are, you are never far from where you want to be.

On campus, the focal point of non-academic life is **TheHub** students' building. This purpose-built space is where students meet for lunch, a quick coffee in Costa, or to log on to one of the many open access computers.

It's also home to Coventry University Students' Union (CUSU) and Square One – the student bar, performing arts space and a 3D cinema.

Business and Advertising BA (Hons)

Faculties and Schools

As an undergraduate student at Coventry University, you will belong to, and will be taught in, one of four academic Faculties, each with two to four subject-specific Schools:

- Faculty of Arts and Humanities
- Faculty of Business and Law
- Faculty of Engineering, Environment and Computing
- Faculty of Health and Life Sciences.

You can find more details on each of the Faculties over the next few pages.

Each Faculty has its own Employability Unit, with specialist staff on hand to assist students who want to gain a work placement, help them to write CVs and cover letters, provide help with interview techniques and much more.

Each Employability Unit has great links with business and industry partners, so students who are looking at work placement opportunities always have access to excellent support and advice.

Faculty of Arts and Humanities

Students and alumni from The Faculty of Arts and Humanities have been shaping the landscape of Performance, Media, Design and the Humanities for over 170 years. Alumni include the Queen's portrait painter and an Academy Award winner ('Oscar' for animated short film) along with designers in most of the automotive styling studios around Europe, including Aston Martin, Jaguar Land Rover, Lotus and BMW. Success came quickly for one 2015 graduate, who has had his comedy show commissioned by BBC Three.

The Faculty is made up of three Schools:

- School of Art and Design

Which includes the Arts, Architecture and Design courses.

- School of Humanities

Which is home to courses in Politics, Sociology, International Relations, English, History and Languages.

- School of Media and Performing Arts

Which comprises of Media and Photography courses together with courses in Music Technology, Dance and Theatre.

As well as an excellent record in internationalisation of the curriculum in the School of Humanities, this Faculty demonstrates all its visual vibrancy, energy and craftsmanship during the annual Degree Shows. Students of all disciplines can exhibit their visual and technical literacy to leaders of industry and the public, showcasing their creativity and skill. The Show which highlights the best of the creative city includes exhibitions, film and dance performances and fashion shows.

Renata Juroszova
Fine Art BA (Hons)

Faculty of Business and Law

The Faculty of Business and Law provides a dynamic and enterprising educational experience for students interested in Business, Economics, Finance, Accounting, Marketing, Management and Law.

The Faculty is made up of two main Schools:

Coventry Business School

Coventry Business School is home to our suite of Business, Finance and Management courses. In addition to popular, broad based degrees we provide opportunities in specialist management areas such as Sport and Human Resources. We have a state-of-the-art Trading Floor, the largest of its kind in Europe, with 42 dual-screen terminals powered by Bloomberg. Students also have access to Reuters, Datastream and Bankscope. As a mark of our quality and international perspective, we are members of the European Foundation for Management Development (EFMD). We also continue to be an active participant in the Chartered Association of Business Schools (CABS). Graduate employment is central to everything that we do and students benefit from our links with prestigious employers including Jaguar Land Rover, Aston Martin, IBM, Peugeot, BNP Paribas, and Goldman Sachs.

Coventry Law School

Coventry Law School is a respected provider of qualifying Law degrees in both general and specialist areas, and is home to all of our LLB Law degrees. Staff bring with them, a wealth of knowledge and experience from professional and academic fields, which they draw upon in their teaching. Law students have access to our recently refurbished Moot Room, where they can practice and develop their advocacy skills. Students may have the opportunity to participate in the Legal Advice Service, where they are able to work with qualified solicitors offering legal services and advice to the local community.

Wilson Mboya

Finance and Investment BA (Hons)

Faculty of Engineering, Environment and Computing

The Faculty is nationally and internationally recognised for its portfolio of first-class education and research opportunities for Engineering, Environment, Mathematics and Computing students. The Faculty has invested £55m in its new state-of-the-art teaching and research building, which is designed to support activity-led learning connecting education and industry. Our Computing and Engineering laboratories and our workshops are equipped to high standards and these facilities are available both in and out of class time for our students to use.

Our courses all build on strong industrial and commercial engagement and link to our wide research portfolio. Our focus on employment is central to our student engagement. The Faculty award winning employment unit will actively support you in your search for internships during your study. We believe that wherever it is possible, courses should be professionally accredited preparing you for a career in your chosen field. Many of our undergraduate courses are accredited by the Engineering Council; please check their website www.engc.org.uk for details.

The Faculty is made up of three Schools:

- School of Computing, Electronics and Mathematics

This School encompasses the collection of our Computing, Mathematics and Electrical/Electronic Engineering courses.

- School of Energy, Construction and Environment

This includes courses in the fields of Geography, Disaster Management, Oil, Gas and Energy Management together with courses in Civil Engineering and Construction.

- School of Mechanical, Aerospace and Automotive Engineering

Which is home to Automotive, Motorsport and Mechanical Engineering courses alongside those within the fields of Aerospace Engineering and Aviation Management.

Radostina Chavdarova
Engineering and Computing Building

Faculty of Health and Life Sciences

The Faculty of Health and Life Sciences offers a wide range of vocational Health and Social Care courses.

The Faculty's approach to teaching, learning and assessment is focused on the practical application of skills and knowledge. Along with comprehensive facilities on campus, which includes an ambulance, a mock operating theatre, a crime scene laboratory and even a prison cell, students experience the benefit of hands on learning.

Academic year 2017 will see the opening of the Faculty's brand new Science and Health Building, which will feature a community house and research laboratory facilities, a strength and conditioning room, running track and sports therapy clinic.

The Faculty is made up of three Schools:

- School of Life Sciences

Which includes courses in Human Biosciences, Food and Nutrition, Sports Therapy, Biomedical Science and Sport and Exercise Science.

- School of Nursing, Midwifery and Health

Which is home to the collection of Nursing and Midwifery courses, along with Dietetics, Physiotherapy, and Paramedic Science courses.

- School of Psychological, Social and Behavioural Sciences

Which includes courses in Psychology, Criminology, Health and Social Care, Social Work and Forensic Investigations.

Harun Hussain
Biomedical Science BSc (Hons)

The Lanchester Library

The University Library caters to every learning style by providing a range of study environments. There's lots of provision for individual, silent and group working, with open areas, study spaces, bookable rooms and the **Disruptive Media Learning Lab (DMLL)**.

The DMLL provides experimental new learning environments including an open plan tiered AstroTurf group space and The Hill; a wooden structure that's also a group workspace.

The Library has almost 1,200 study spaces, over 500 computer workstations and wireless networking throughout the building. It provides a range of services, including access to over 350,000 print books, 70,000 e-books, 30,000 electronic and print journals and a large range of other multimedia resources.

With 24-hour opening during peak periods and a large number of electronic resources available to access off-campus, the University Library prides itself in providing a service to meet your needs.

Careers

There are so many reasons to study at University, but the end goal of putting yourself on the graduate career ladder is one of the most important factors.

At Coventry, we work with you to help you stand out from other graduates and prepare you for a successful career. Recent results show how successful this investment is; an impressive **95% of our graduates gained employment or continued further study** after they graduated*.

Not all graduate jobs require a particular degree subject. Often, employers are looking for more general capabilities such as being enterprising, having a global outlook and having good communication, problem-solving and analytical skills. You will be able to develop these characteristics throughout your studies.

Through the **Careers and Employability Service**, we invest heavily in helping you secure work placements and internships. This could be as part of the course itself, through a year out or during the university breaks.

To give you even more of an advantage when applying for graduate positions, we have developed a programme of **Add+vantage** modules for students to choose from. Where mandatory, the **Add+vantage** modules must be passed in order to be eligible for an honours degree. Please see our website for more information www.coventry.ac.uk/addvantage

Our **Global Leaders Programme** exists to help you maximise your future career prospects through a series of workshops, seminars and fieldtrips about leadership and global careers. Please see our website for more information www.coventry.ac.uk/glp

Isabella Yeboah
Sociology BA (Hons)

Enterprise

If you are thinking of starting a business or becoming self-employed, Coventry University offers entrepreneurial support for students and recent graduates through funding, practical advice and business space.

The International Centre for Transformational Entrepreneurship supports students in a variety of ways such as enterprise skills development, networking, workshops, events, and the development of ideas. The University has been awarded the Social Enterprise Mark for our dedication to supporting and developing social enterprises created and run by our staff, students and alumni.

To enhance your knowledge in enterprise you can take an **Enterprise and Entrepreneurship BA (Hons)** course that helps you to set up and run your own company alongside academic study. Alternatively, around 1,000 students each year take entrepreneurship modules as part of the **Add+vantage** scheme. Some want to explore the possibility of starting a business when they graduate, others want to develop their enterprise skills and to be more effective 'intrapreneurs' or enterprising employees.

www.coventry.ac.uk/careers

International opportunities

All of our students at Coventry University are encouraged to take part in the opportunities available to help you become a global graduate.* The University's Centre for Global Engagement (**CGE**) is a service set up to help support students' international experience.

International opportunities arise in:

- A study year
- A paid placement year
- Short trips
- Volunteering

You can learn one of 19 languages, classes are offered by **Linguae Mundi** - Coventry University's innovative foreign language programme aimed at helping learners to explore different languages and cultures in a practical and interactive environment.

Culturae Mundi is another **CGE** initiative that helps students run events celebrating multilingualism and multiculturalism on campus and in the city.

*Please note that all international visit/opportunities and placements are subject to a successful student application and criteria being met. Locations, conferences and work experience are all subject to change. Additional fees apply. Please contact the Faculty for up to date information.

More than one way to study

While this prospectus is primarily about full-time, undergraduate study at Coventry University, we'd like to make you aware that there are other colleges and campuses linked to the University, as part of the wider Coventry University Group.

Coventry University London Campus (CULC)

opened in 2010 and now has over 1,000 students from 60 countries. It offers undergraduate and postgraduate courses in subjects allied to Business, Hospitality and Fashion. Located close to Liverpool Street station, the focus at CULC is the provision of a professional experience.

Coventry University College (CUC) is located on the same site as the Coventry University campus. It was created in 2012 with a mission to provide flexible and modular study options at a variety of qualification levels ranging from Foundation and HND courses right through to full degrees. Students can study either in the morning or afternoon, on a regular timetable, so they can plan around other commitments. CUC courses run in six-weekly blocks and have entry points throughout the year. The flexible learning offered at CUC includes evening, weekend, part-time and online study options.

The newest addition to the group is **Coventry University Scarborough Campus (CUSC)**, which had its first intake of students in September 2015. Located on the stunning Yorkshire coast, Coventry's new offering in the north will move to a brand new, purpose-built site for the start of the 2016/17 academic year. Scarborough offers flexible learning, including evening, weekend and part-time courses ranging from Foundation, HND courses and full degrees.

Law LLB (Hons)

Welcoming International Students

At Coventry University, we are a truly global University and we take great pride in welcoming more than 12,000 international students from 150 different countries, with over 9,000 of them undertaking undergraduate study. We offer a range of support and activities to help you settle in quickly, from meet and greet airport services to a dedicated induction.

International Office

Our International Office includes multilingual staff, many of whom have had experience living and studying abroad. They will provide support and manage your introduction to the University.

Support starts from the moment you consider studying at Coventry University. We are on hand to answer any questions you may have on a range of subjects, such as pre-arrival, visa, immigration, finances, employment regulations and culture. We will keep in contact with you throughout the year, sending updates to make sure you have all the information you need to start your course.

How to Apply

Coventry University receives a large number of applications from prospective students holding international qualifications from around the world. Entry requirements for each course are included in the online course finder. Please see www.coventry.ac.uk/courses for more information.

You need a minimum of IELTS 6.0, or an equivalent English language qualification for entry onto our undergraduate courses. To help you achieve this we offer pre-sessional English courses ranging from 5 to 20 weeks. For more information please visit www.coventry.ac.uk/international

For more information about entry requirements please visit the regional page for your country at www.coventry.ac.uk/regional

Applying to Coventry University is an easy and quick process and you will receive an initial decision within two working days. You can apply online or download an application form from our website.

Our Civil Engineering courses have a strong international focus and we have links to institutions and partner universities across the globe.

Global Opportunities

- You will have the opportunity to apply for a study year in Europe through our Erasmus Scheme or further afield in Canada, Oman or Malaysia.
- You will have the opportunity to apply for a paid placement year in the UK, Europe or across the globe with our Centre for Global Engagement. Previously students have secured placements at: Balfour Beatty Construction, Severn Trent Water, Warwickshire County Council and Mott Macdonald.
- There may be opportunities for shorter departmental field trips.

Our Career Focus

The Faculty has its own Employability Unit and we encourage students to apply for a paid placement in year three which we will help you with.

Possible Careers for Graduates

- Civil Engineer
- Environmental Engineer
- Geotechnical Engineer
- Site Engineer
- Structural Engineer

Reasons to Choose Civil Engineering

These courses are accredited by the Joint Board of Moderators (JBM). Details of which accrediting bodies are part of JBM can be found on their website www.jbm.org.uk

A close-up photograph of a white surveying level mounted on a silver and orange tripod. The background is a blurred outdoor setting with a large, dark, rectangular structure on the left and a bright, hazy sky. The level has a black lens on the left side and various adjustment knobs and screws on top.

Civil Engineering at Coventry University is an engaging and challenging course. There are a lot of fun aspects to the course such as practical based lab sessions which are always carried out in groups with sufficient guidance and support.

Why Computing, Cybersecurity and Games Development at Coventry University?

Our digital age has defined us and has become the root of our everyday life. From the way we work, the interfaces we use and the way we communicate, technology is present. If developing software, learning how to prevent cyber attacks or creating mobile apps is your passion, come along to one of our open days and see for yourself why we are the right choice for you.

Our International Focus

Our courses have a strong international focus and we have links to a number of institutions and partner universities across the globe.

Global Opportunities

- You will have the opportunity to apply for a study year in Spain or Finland through our Erasmus Scheme, or further afield in Brazil or Indonesia.
- You will have the opportunity to apply for a paid placement year in the UK, Europe or across the globe with our Centre for Global Engagement.
- There may be opportunities for shorter trips such as the 'Virtual Worlds' conference in Athens, the 'Study China' programme and field trips, which in the past have included: Brazil, China, Indonesia and Tanzania.

Our Career Focus

The Faculty has its own Employability Unit and we encourage students to apply for a paid placement in year three which we will help you with.

Possible Careers for Graduates

- **Computer Programmer**
- **Information Technology Technician**
- **Penetration Tester**
- **Security Consultant**
- **User Experience Engineer**

Why Electrical and Electronic Engineering at Coventry University?

Our industry-informed courses give you hands-on experience with computer hardware and electronic systems. You will discover the technology behind communication networks, embedded computer systems and electric vehicles. The emphasis in these courses are on practical design and development, with access to the innovations that are changing the world of engineering. Our links to industry include IBM, National Grid, Mercedes Benz and Severn Trent Water. Come along to one of our open days and see for yourself why we are the right choice for you.

Our International Focus

Our Electrical and Electronic Engineering courses have a strong international focus, with links to institutions and partner universities across the globe.

Global Opportunities

- You will have the opportunity to apply for a study year in Europe through our Erasmus Scheme or further afield in Canada, Oman or Malaysia.
- You will have the opportunity to apply for a paid placement year in the UK, Europe, or across the globe with our Centre for Global Engagement.
- There are many opportunities for shorter trips, previous students have gone to Shanghai.

Our Career Focus

The Faculty has its own Employability Unit and we encourage students to apply for a paid placement in year three which we will help you with.

Possible Careers for Graduates

- Computer Hardware Developer
- Electrical Engineer
- Electronics Engineer
- Embedded Systems Developer
- Power Engineer

Reasons to Choose Electrical and Electronic Engineering

We are accredited by the following professional body:

Alongside learning the theory of Electronics Engineering, Coventry University has given me a hands on experience of practical work, using excellent equipment to develop course projects, preparing me for the real working world.

Why Energy and Environment at Coventry University?

The world we live in is facing numerous challenges, from sustainable development, climate change and natural hazards and disasters to risk reduction and international terrorism. Our courses explore these important and challenging issues and help prepare you to be able to research, manage and make informed decisions about them in the future. Come along to one of our open days and see for yourself why we are the right choice for you.

Our International Focus

Our Energy and Environment courses have a strong international focus and we have a number of links to institutions and partner universities across the globe.

Global Opportunities

- You may have the opportunity to study part of your course at the University of Reykjavik in Iceland or teach children about disaster prevention in Taiwan.
- You will have the opportunity to apply for a paid placement year in the UK, Europe or across the globe with our Centre for Global Engagement.
- We work with our student-led International Disaster Concern Society, GeogSoc and the Society of Petroleum Engineers to provide unique opportunities. Recent trips have seen students assisting refugees in Jordan, visiting volcano observations in Alaska, Hawaii and Mexico and attendance at conferences in Qatar.

Our Career Focus

The Faculty has its own Employability Unit and we encourage students to apply for a paid placement in year three which we will help you with.

Possible Careers for Graduates

- **Emergency Planners**
- **Environmental Consultants**
- **Fire, Police and Ambulance**
- **Geographical information System Analyst**
- **Humanitarian Relief Workers**
- **Nuclear Industry (Oil & Gas)**

Reasons to Choose Energy and Environment

All undergraduate students benefit from residential field trips in each year concluding in a final year international field trip. Previous students have visited Africa or Europe.

This course is focused around building knowledge and necessary skills for a career in International Disaster Relief, National Emergency Management and Business Continuity and Resilience. I absolutely love it!

Our Media and Performing Arts courses have a strong international focus and we have a number of links to institutions and partner universities across the globe.

Global Opportunities

- You may have the opportunity for a student exchange programme at Zhejiang University of Media and Communications in China, the New York University Education Theatre Department, or a study year in Europe through the Erasmus Scheme.
- You will have the opportunity to apply for a paid placement year in the UK, Europe or across the globe with our Centre for Global Engagement.
- There are opportunities for departmental trips. In the past students have gone to the Basel Fasnacht Festival in Switzerland and the Berliner Ensemble in Germany.

Our Career Focus

The Faculty has its own Employability Unit and we encourage students to apply for a paid placement in year three which we will help you with.

Possible Careers for Graduates

- Communications Executive
- Journalist
- Media Specialist
- Musician
- Photographer

Why Social Work, Childhood and Counselling at Coventry University?

These degrees are concerned with people's wellbeing; our courses provide you with excellent teaching and practice opportunities in order to prepare you to help children, young people and adults. You will develop an understanding of human behaviour and development, education and the social context that shapes people's lives, along with the skills and knowledge to influence the lives of some of the most vulnerable people within our society. If you have a passion for working with people, come along to one of our open days.

Our International Focus

Our courses have a strong international focus, and we have many links to institutions and partner universities across the globe.

Global Opportunities

- You will have the opportunity to apply for a study year in France, Germany, Spain, Malta and other destinations through our Erasmus Scheme.
- You will have the opportunity to apply for a paid placement year in the UK, Europe or across the globe with our Centre for Global Engagement.
- Opportunity for shorter trips overseas such as 'Study China' and 'Columbus: The Americas' programme, problem-based learning in the Netherlands and community development in South Africa.

Our Career Focus

All courses have a placement component which help prepare you for your career and the real working world. The Faculty has its own Employability Unit and we encourage students to apply for a paid placement in year three which we will help you with.

Possible Careers for Graduates

- Counsellor
- Educator
- Learning Mentor
- Social Worker
- Teacher
- Youth Worker

Reasons to Choose Social Work, Childhood and Counselling

Tuition fees and loans

Tuition Fees for your first year are listed on the course pages of the website and in this prospectus. If you are a UK or EU student you may be eligible for a Tuition Fee Loan from the Student Loans Company, which means you do not have to pay these fees in advance.

In addition to the Tuition Fee Loan, which is paid directly to the University, you may be eligible for a Student Maintenance Loan. This loan is paid directly to students and is designed to cover everyday living costs while you are at University. The amount you may be eligible to borrow is based on your household income and whether you are planning to live at home or in University accommodation.

You do not need to repay the University loans until after you have completed your course and are earning a salary over a pre-determined threshold.

To see what support you may be eligible for, and for more information on repaying student loans, head to the Student Finance section of the **gov.uk** website.

Scholarships

Coventry University offers a range of scholarships to help students with the cost of education. Scholarships can be in the form of cash or other support that the University awards to students. You may be eligible for a scholarship on the basis of an academic achievement or if you play sport to a high level. Most scholarships also allow you to renew or reapply each year. Be sure to check your eligibility for each scholarship on our website.

www.coventry.ac.uk/scholarships

Academic and Student Support

Within the Library are three very useful help services, which are free and available to all students.

The **Centre for Academic Writing** aims to provide students with customised advice and guidance on assignment writing and academic writing genres such as essays, reports, dissertations, theses and exam papers.

The Maths and Stats Support Centre, known as **SIGMA**, helps all students with any aspect of their course that involves an element of mathematics or statistics.

The **IT Services Helpdesk** is staffed by experts who can assist with any IT and technical problems that may occur.

All three services are open throughout the week during term time and operate on a drop-in basis.

Student Support

Professional advice is available for students with a disability through the **Disability Support Team**, which is part of **Health and Wellbeing**. Disability Advisors can support you from application through to graduation, providing guidance before your course starts and individual support throughout your time with us. If you would like to discuss your support needs and find out more about disability support, you can get in touch by calling **024 7765 8029** or emailing **disoff.ss@coventry.ac.uk**.

Counsellors and Mental Health Advisors are available to ensure students get all the support they need during their time at Coventry through 1:1 confidential counselling or small group workshops. For more information you can contact the Health and Wellbeing reception on **024 7765 8029** or email **counsell.ss@coventry.ac.uk**.

The **Spirituality and Faith Centre** welcomes and supports everyone whether or not they have a faith. There are quiet spaces for reflection and meditation; a non-denominational chapel, Muslim prayer rooms with ablutions and a spiritually focused social space for students and small groups to meet. You can also arrange to talk to any of the University's multi-faith chaplains.

University
University

Accommodation

The **FutureLets** team are the managing agent appointed to manage accommodation on behalf of Coventry University. First year students have the option of choosing University-owned or managed accommodation or private accommodation. Most University-owned or managed accommodation is on campus or very close to the University and city centre.

This means that, subject to availability, you can choose which accommodation you apply for based on your own budget and requirements.

Catered accommodation

If you want the certainty of having your meals cooked for you then Quadrant Hall or Priory Hall may be for you. Quadrant Hall is within easy walking distance of the campus while Priory Hall is right by University Square.

Self-catered accommodation

Singer Hall is a popular self-catered student village arranged in flats of five or six students. This hall is designed for students who want the communal atmosphere of a small group flat, but the peace of mind of living in University-owned accommodation.

Other Halls of Residence

There are many other accommodation options, including more traditional Halls of Residence layouts such as the very popular Callice Court and Liberty Point. More information can be found on the accommodation pages of our website.

Student Accommodation

And if you plan to live at home and commute...

For those of you who plan to live at home and commute to campus, you will certainly benefit from our central location.

Coventry railway station is just a 10 minute walk from campus and there are regular services from Birmingham, Leamington Spa, Northampton, Nuneaton, Rugby and many other local stations in-between, including the other Coventry stations at Tile Hill, Canley and Arena Park. Trains from Birmingham New Street take just over 20 minutes and Coventry is only around 15 minutes from Leamington Spa, Nuneaton and Rugby.

The main coach and bus station, Pool Meadow, is even closer to campus. It's right on the doorstep of Priory Hall and only five minutes walk from TheHub. The bus station serves destinations from all over the Midlands and beyond. Find out more at:

www.networkwestmidlands.com

Our city-centre location means that some students choose to cycle in. There are plenty of sheltered bike-locking areas on campus. If you are planning to bring your car to University, there is a student-only car park that charges just £1 for four hours of parking and £2 to park there all day*.

*prices correct at the time of printing

Coventry

Rugby

Sport Coventry

Sport Coventry is aimed at all levels and abilities, with a wide range of activities to suit everyone.

The Sports Active programme runs throughout the year and lets you join a session or short course that's open to everyone. For the more elite sports person, Team Phoenix includes men's and women's first and second teams in a variety of sports.

They compete against other UK universities' sports teams on Wednesday afternoons through the British University and Colleges Sports (BUCS) leagues. In the 2015/16 season, the University fielded 54 teams across 21 sports and became indoor cricket champions and boxing champions.

Students who compete at a high level may also be eligible for a Sport Scholarship, which provides cash and support to help you in both your academic and sporting life.

The Sports Active *Try It, Play It, Love It* programme offers students fun and inexpensive sports sessions that cater for all abilities, where all equipment is provided. There are sessions in traditional sports such as tennis, running and swimming as well as alternative sports like korfbal and ultimate frisbee.

Whatever your aim, interest or ability, there is something for everyone to get involved with at **Sport Coventry**.

www.coventry.ac.uk/sportcoventry

SportCover
SPORTS SHOES

Sports Centre

The **Sport and Recreation Centre** is located centrally on campus. It contains a fitness suite with all manner of cardiovascular and resistance machines, free weights and a core and stretch area. There are two indoor sports halls that are available to book for games of basketball, indoor football, badminton, netball and other sports. There's also a Therapy Clinic to help students with any sports-related injuries.

You can also take advantage of the gym and fitness classes in the dance studio. Classes are changed and updated termly so that your workout routine always stays fresh. There are classes to suit all levels of fitness and experience from low-intensity yoga to high-energy Fight Klub, spinning and many more.

Outdoor facilities, including several full-sized football, rugby and hockey pitches and an AstroTurf training facility, are a short bus journey away at Westwood Heath. This is where many of the Team Phoenix sides play their home matches against rival universities, as well as where some of the intra-mural sport takes place, where groups of students can set up their own independent sports teams and play against each other.

Sam Butcher
Business Management BA (Hons)

Coventry University Students' Union (CUSU)

Based in TheHub students' building, CUSU is the focus of social and democratic life on campus.

As well as the annual Freshers' Week and Varsity activities, CUSU runs a full programme of trips, club nights and events to help students get the most out of their time at University.

There are plenty of ways for students to widen their experience and boost their CV, through CUSU initiatives. Volunteering, becoming a course or faculty rep, or getting involved with Source Media, the student-run newspaper, TV channel and radio station, are just a few of the opportunities available. CUSU also runs an independent advice and representation service that is open to all students.

Based on its all round quality of service, CUSU achieved the higher level Quality Students' Union Award from the National Union of Students (NUS) in 2015.

The other major way in which CUSU helps students have a fantastic experience at Coventry University is in the support they give to the multitude of sports clubs and societies.

For more information on the opportunities that the Students' Union provide visit: www.cusu.org

www.coventry.ac.uk/cusu

Mike Sanusi

Aerospace Technology BEng (Hons)
In TheHub

Sports, clubs and societies

Run by current students, our sports, clubs and societies are as diverse as our students and their interests.

There are around 50 sports clubs and over 100 societies that constantly evolve as any group of students can set up a club or society that represents their interests.

Sports clubs allow everyone to get involved; currently we have football, hockey and rugby, as well as some more obscure sports like lacrosse and mountaineering. Every year the sports clubs get the chance to compete in the Varsity tournament against our (friendly) rivals from the University of Warwick. It's one of the highlights of the student year.

As for societies, new ones crop up all the time as a result of our students' ingenuity and imagination. For instance, there are academic societies covering many of the broad areas of study alongside cultural and religious societies, political societies, music and performance societies and even 'appreciation' groups – such as the Pokémon Society. There was even a Chocolate Appreciation Society once, now sadly defunct but surely in need of revival!

More information on clubs and societies is available on the CUSU website.

www.coventry.ac.uk/cusu

Students at The Phoenix

Nightlife

Coventry has recently been named as the **4th best student city in the UK** by the QS World Rankings 2016 and when you look at the entertainment and nightlife options available for Coventry University students, there's little wonder why the city features so highly in this year's list.

There are regular student nights hosted at city centre clubs and venues. The student-only door policy means that you are likely to bump into familiar faces at the same time as meeting new friends from across the University.

The Phoenix and **Quids Inn**, both located just opposite **TheHub**, are favourite student bars with an ethos based on student discounts, whilst **The Empire**, Coventry's newest live music venue and club on Far Gosford Street, is proving a popular addition to our collection of student haunts.

If you fancy venturing a little further afield, **JJ's nightclub**, **Club M Vinyl** and **Vogue** are located within a 10 minute walk away and offer a night out that'll play a range of music from current commercial tunes to something a little cheesier.

Restaurants and bars
Cathedral Lane

Say hello

If you'd like to come and see the campus, have a look around and find out more about the subject you intend to study, then why not book on to one of our Open Days?

Open Days provide the perfect opportunity to meet staff and engage with some of our current students – you will get a real feel of what it is like to study here. Our staff will talk in detail about our courses and the learning practices and environments we use to teach. We will also talk to you about the support we have available to all students, including international placements and study opportunities.

You will be able to go on a walking tour of the campus with a current student, where you will be shown the Library, the Sports Centre, TheHub and the location of the Faculty buildings. There's also the opportunity to have a look around some of our student accommodation residences on and around campus.

Our Open Days for 2017 entry are:

Saturday 18 June 2016

Saturday 10 September 2016

Saturday 15 October 2016

Saturday 12 November 2016

If you can't make any of our Open Day dates, then you can come along to one of our Student-Led Tours instead, which offer an extended walking tour of the campus and its immediate surroundings, followed by lunch in TheHub.

To find out more or to book your place, head to the website at www.coventry.ac.uk/opendays

For international students who can't attend an Open Day or a Student-Led Tour, please visit:

www.youtube.com/user/CovStudent.

Where our videos will give you a fantastic overview of the campus, the city and what it is like being a student at Coventry University.

www.coventry.ac.uk/opendays

Coventry
University

A view of Coventry University Campus

Next steps...

Now you've read our prospectus you might be wondering what to do next. Well, here are a few ideas from us:

Gather more information from university websites, UCAS and Unistats on the courses you are considering and then narrow down your list of options. Forums like The Student Room are a good source of background information, as are YouTube and student blogs.

Home/EU Students

Visit as many universities as you can before you make your UCAS application. If you can't make it to one of the big Open Days then try to book on to a weekday Student-Led Tour, campus visit and check out campus videos online.

Once you've decided what course you want to study make sure to send your UCAS application before the 15 January 2017 deadline.

After you've applied keep an eye on UCAS Track and your email for offer decisions or interview invitations. We use email as our main way of communicating with our applicants.

If you are unsure about anything, then please get in touch with us in the Recruitment and Admissions Office. We'll be happy to answer any questions you have about applying to University or about student life in general.

Tel: **024 7765 2222**

Email: **studentenquiries@coventry.ac.uk**

International students

Applying to Coventry is an easy and quick process and you will receive an initial decision within two working days. You can apply online or download an application form from our website **www.coventry.ac.uk/international**

Our International Office is here to support you with all aspects of the application process, courses, visas or student life in general.

Thank you from the Vice-Chancellor

As both the Vice-Chancellor and a double graduate of Coventry University, you will struggle to find someone to whom this University means as much as it does to me. That's why it gives me great pleasure to be able to play a small part in your journey to becoming an undergraduate student here.

I hope we have shown you what sets Coventry apart and why our forward-thinking approach, modern facilities and practical learning have resulted in Coventry being named **University of the Year***, as well as becoming the only University in the country to be judged the **UK's number one modern University**** for an unprecedented three years running.

But enough from me. Come to one of our Open Days and discover for yourself why thousands of students choose this award-winning University every year.

We'll put your future first.

Professor John Latham
Vice-Chancellor and CEO
Extraordinary Professor at Stellenbosch University

Everything I am.

The contents of this prospectus are correct at the time of going to press.

However, because of the sometimes lengthy period of time between printing the prospectus and applications being made and processed by us, please check our website **www.coventry.ac.uk**

before making an application, in case there are any changes to the course you are interested in or to other facilities and services described here. Where there is a difference between the contents of this prospectus and our website, the contents of the website take precedence and represent the basis on which we intend to deliver our services to you.

If you are not able to access information online, please contact the Recruitment and Admissions Office on **024 7765 2222** or email **studentenquiries@coventry.ac.uk** for the most up-to-date information concerning course content, accreditation, course fees, scholarships, bursaries and entry requirements for the relevant academic year.
